Hill's

WHOLESALE CATALOG

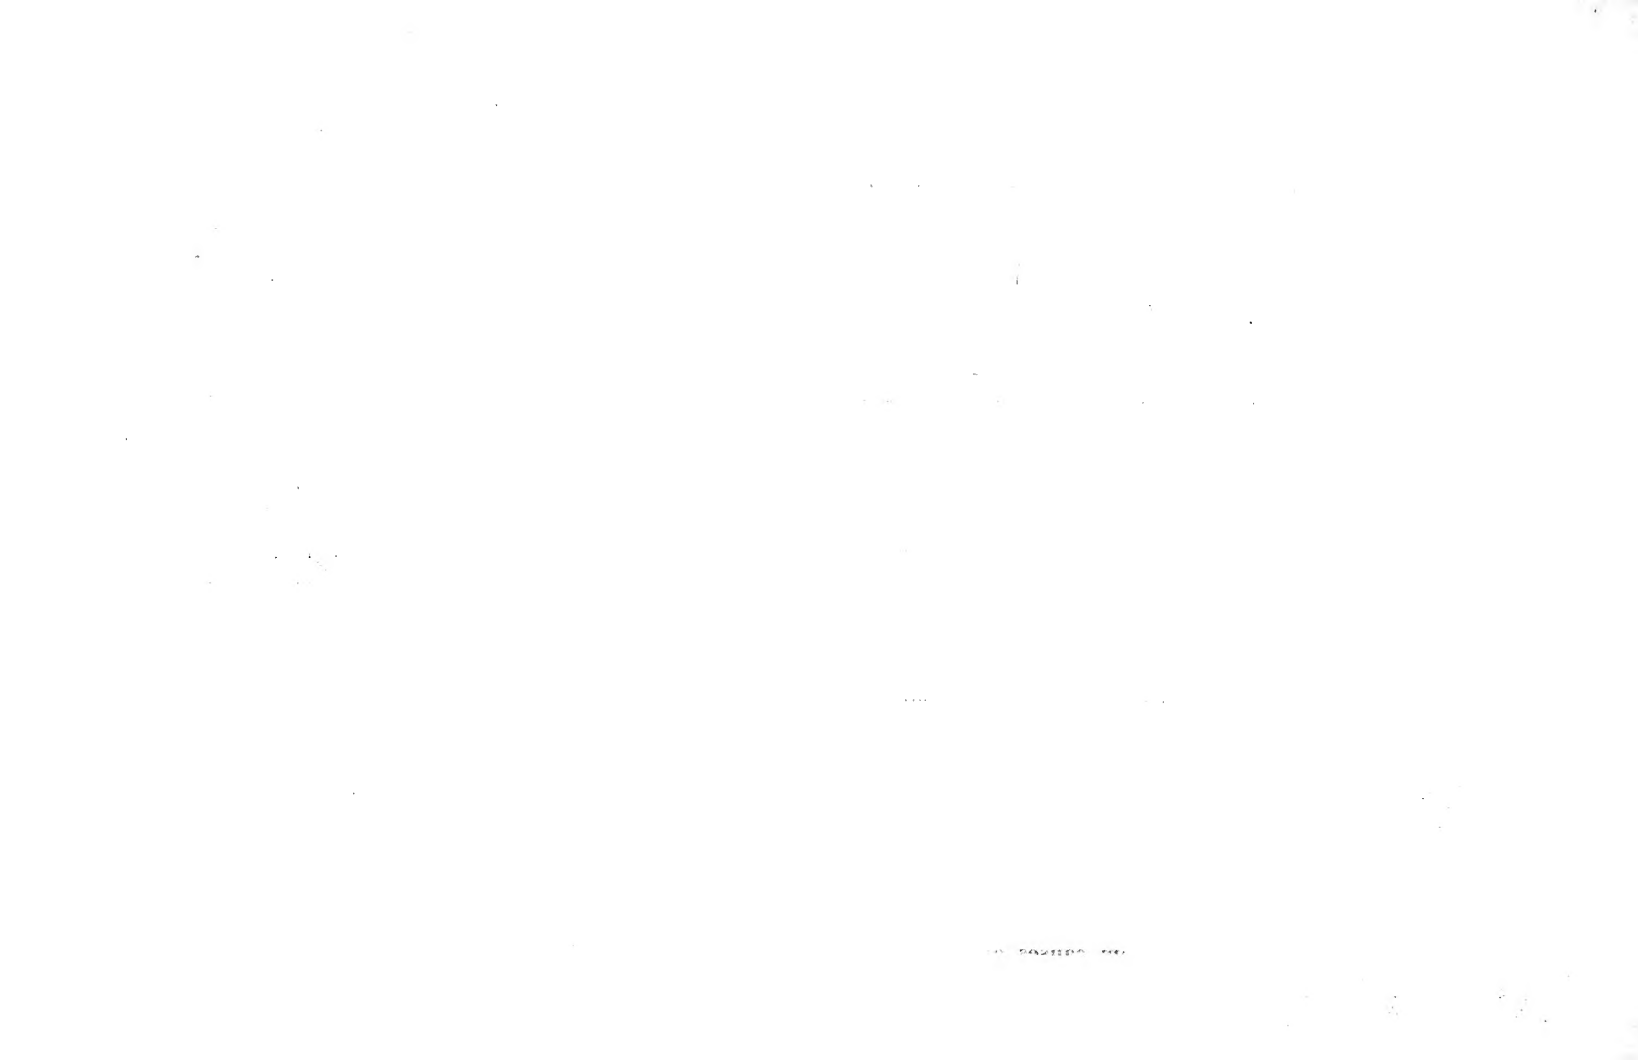

FALL 1947 - SPRING 1948

EVERGREEN SPECIALIST

. LARGEST GROWERS IN AMERICA

D. Hill Nursery Co., Dundee, Illinois

Terms and Information

TERMS OF PAYMENT:

Cash plan: Where cash is received in full payment of Fall orders by September 15th, and on Spring orders by March 15th, a 3% discount will be allowed.

Open Account: Goods will be supplied open account to customers of approved credit who supply satisfactory trade and bank references. Time must be allowed for investigation. Terms are 2% 10 days, net 30 days.

C.O.D. Orders: All C.O.D. orders must be accompanied with one third down payment.

NOTE: When retail customers are sent to our sales yard to buy on a wholesale account, they must have either a letter or purchase order from the firm sending them. The discount on sales of this kind is 25% off the retail.

SHIPPING SEASONS:

The Fall season begins usually about the 15th of September or at that time when we have had sufficient rain to put the ground in proper condition for digging. The Fall season usually closes November 15th.

The Spring season begins just as soon as all the frost is out of the ground—usually around April 1st. By May 15th, the stock is normally too far out in growth to transplant successfully.

PRICES:

The prices in this catalog are limited to the Fall of 47 and the Spring of 48. This supercedes all previous lists and all **PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.**

RATES:

B&B Stock

5 of the same variety and size at the 10 rate
25 of the same variety and size at the 100 rate

Clean Root Stock

25 of the same variety and size at the 100 rate
250 of the same variety and size at the 1000 rate

Sold in multiples of 25 only.

BOXING AND PACKING: Charged for at the actual cost of material used.

LOCATION: We are situated 45 miles northwest of Chicago, on Highway #31, just north of the intersection with #72. Visitors are always welcome.

EXTRA CHARGE FOR PERSONAL SELECTION:

Prices in this catalog are for first quality stock, fully up to size and as represented. Customers who wish to make personal selection and tag trees in the nursery may do so at 25% extra charge.

SPECIAL NOTICE:

Correspondents are requested to use their printed letter-heads. This catalog is for the trade only and in justice to our trade customers, we will make every effort to limit the distribution of trade prices to those we know entitled to receive them.

All orders are accepted upon the condition that they shall be void should any injury befall the stock from causes over which we exercise no control. THESE PRICES DO NOT INCLUDE ANY GUARANTEE WHATSOEVER AS TO GROWTH.

LINING OUT EVERGREENS

In this year of 1947 - 1948, the supply of first quality lining-out Evergreens is limited. Please give us a chance to fill your needs by ordering early. We are happy to reserve for future delivery, the stock which you require. The list below indicates stock as seedlings, once transplanted or twice transplanted. Sold in multiples of 25 only. 25 at the 100 rate; 250 at the 1000 rate.

Balled and Burlapped Evergreens for both growing on and immediate landscaping use.

JUNIPERS

Juniperus chinensis keteleeri — *Keteleer Juniper*

Actually a form of the Chinese Juniper, this tree has been erroneously called a Virginiana variety. It has a good green color, grows rapidly with very large, attractive berries, and has a tendency to grow with a straight main leader even when small.

	Each	10	100
3—4 Feet xxx.....B&B	\$ 5.25	\$ 50.00	\$ 475.00

5—6 feet xxx.....B&B	8.50	82.50	800.00

Juniperus chinensis pfitzeriana — *Pfitzer Juniper*

A favorite for landscape planting in every section of the country, it plays an important part because of its ornamental qualities and the fact that it will stand considerable shade and crowding. It originated in the Pfitzer Nursery near Berlin, Germany about 40 years ago. The tree naturally grows in a medium height, wide spreading habit. It is frequently staked up in nurseries when small so that it grows into a somewhat taller tree.

2½—3	feet xxx.....B&B	5.00	47.50	450.00

Juniperus chinensis pfitzeriana aurea — *Hill Golden Pfitzer Juniper*

Introduced by Hill's to the Nursery trade in 1937, this evergreen has since been widely acclaimed throughout the country because of its clear canary yellow foliage, interspersed with green. During the late summer it loses some of its bright color, but comes out again in the spring with its brilliant gold.

JUNIPERS

Juniperus communis depressa vase-shaped — Vase-shaped Prostrate Juniper

A distinct improvement over the old seedling variety, it has a semi-erect and regular form. The color is greyish-green.

	Each	10	100
15 —18 inch xx.....B&B	\$ 1.45	\$ 13.50	\$ 125.00
1½ —2 feet xxx.....B&B	2.25	20.00	175.00

Juniperus horizontalis plumosa — Andorra Juniper

This tree has a low spreading habit, seldom reaching more than 15 to 18 inches in height, but spreading out to considerable distance. As soon as frost touches it, it takes on an attractive pink or purple color, distinct from the winter color of most other Evergreens. In the summer it is a greyish-green. Requires open, sunny, well-drained location for best development.

	Each	10	100
12—15 inch xxB&B	\$ 1.40	\$ 13.00	\$ 120.00
15—18 inch xxx.....B&B	2.50	22.50	200.00

Juniperus procumbens — Japanese Juniper

A hardy, thrifty, rapid growing juniper, this tree has a fine color both winter and summer, making it a favorite with many nurserymen. Old specimens reach a considerable size in width, but it seldom grows more than 8 to 12 inches

high. Foliage has a distinct blue-green color, sharply pointed leaves, marked on the upper surface by two white lines.

	Each	10	100

3 — 3½ feet xxx.....B&B	10.25	100.00

Juniperus sabina von ehron — Vonehron Juniper

An improved horticultural variety of Savin Juniper. This Evergreen is an extremely rapid grower and bears both juvenile and adult foliage. Attractive dark green color and spreading habit.

	Each	10	100
1½ —2 feet xxx.....B&B	\$3.00	\$27.50	\$250.00

Juniperus squamata meyeri—Meyer Juniper

You'll like this tree because of its unusual coloring—the leaves are plump, pointed and of bright blue color. From various angles the foliage appears green, white and pinkish-red. It grows in an irregular upright form.

	Each	10	100
12—15 inch xx.....B&B	\$1.70	\$16.00	\$150.00
15—18 inch xx.....B&B	1.95	18.50	175.00

Each x indicates one transplanting. 5 of the same variety and size at the 10 rate; 25 at the 100 rate. B&B signifies balled and burlapped.

JUNIPERS

Juniperus virginiana canaerti — *Canaert Juniper*

An old favorite of the landscape architect, this tree, a variety of the Redcedar, grows in a symmetrical, pyramidal shape, well covered with heavy green foliage. It tends to the whipcord type foliage, rather than needle form, and has bluish berries which often grow in large clusters, giving the tree a striking appearance.

		Each	10	100

7 — 8	feet xxxx.....B&B	35.00

Juniperus virginiana hilli — *Hill Dundee Juniper*

A Hill introduction and considered to be one of the most valuable in recent years. Grown from a specimen discovered in the D. Hill Nursery, it forms a compact, symmetrical pyramid of moderate size and is one of our few varieties that is adapted to almost all parts of the country. It has a particularly attractive winter color unlike the ordinary red cedar or the winter color of any other juniper. In Spring and Summer you'll find it to be greyish green—slightly on the bluish tint, while in Fall and Winter it is a purple-plum shade.

		Each	10	100

5½ — 6	feet xxx.....B&B	15.50	150.00

SPRUCES

Picea excelsa — *Norway Spruce*

This tree is a well-formed pyramid, with graceful drooping branches. Makes a good screen or wind break and also may be trimmed in hedge form. Widely used as an understock for grafting Spruces.

		Each	10	100
2 — 3	feet xxx.....B&B	\$2.25	\$20.00	\$175.00
3 — 4	feet xxx.....B&B	4.00	37.50	350.00
4 — 5	feet xxx.....B&B	5.50	52.50	500.00

Picea glauca conica — Dwarf Alberta Spruce

One of the most interesting oddities among evergreens . . . a perfectly shaped tree in miniature. Grows slowly with an extremely close, pyramidal habit. Thickly covered with short, stiff branchlets and grass-green leaves. Hardy and able to stand severe cold. Perfect for window boxes, table Christmas trees and miniature gardens. Discovered in the Canadian Rockies in 1904.

	Each	10	100
12—15 inch xxx.....B&B	\$3.00	\$27.50	\$250.00
15—18 inch xxx.....B&B	3.50	32.50	300.00

Picea glauca densata — Black Hill Spruce

Through centuries of living in the Black Hills country of South Dakota, this tree has developed many of the characteristics of the White Spruce. The foliage varies from green to bluish tint. This is one of the hardiest of all Spruces, growing symmetrical, compact and bushy. The small specimens only a few inches high are well-developed. Of slow growth and moderate size at maturity.

	Each	10	100
12—18 inch xx.....B&B	\$1.40	\$13.00	\$120.00

Picea pungens kosteriana — Koster Blue Spruce

Probably the most in demand of any ornamental Evergreen because of its spectacular color. Widely known and appre-

ciated throughout the country. This tree is produced by a grafting process.

	Each	10	100
EXTRA HEAVY			
6—10 feet xxxx.....B&B	\$25.00	to	\$50.00

PINES

Pinus mughus — Hill Mugho Pine

The seed of this tree is gathered in a very limited locality of Central Europe. It is a plant that grows high up on the mountain sides. The selected strain of seed produces the many-stemmed low-branched Dwarf type. It does not have one main stem but several, which branch out close to the ground. The color is deep green in summer and winter. It seldom grows over 4 or 5 feet tall, but spreads 6 or 8 feet in diameter. By annual shearing it can be kept as small as described. The growth is dense and thickly covered with heavy dark green needles. It is without question, the outstanding Dwarf Evergreen tree for all-around use.

	Each	10	100
10 x 10 inch xx.....B&B	\$1.45	\$13.50	\$125.00
12 x 12 inch xxx.....B&B	2.00	17.50	150.00

Pinus sylvestris — Scotch Pine

When small this tree is a rapid grower, with light green foliage. In old age it seldom grows symetrically as the

Each x indicates one transplanting. 5 of the same variety and size at the 10 rate; 25 at the 100 rate. B&B signifies balled and burlapped.

branches shoot off in irregular formation making it a picturesque rather than shapely specimen. The variety we grow is from Swedish seed, ideal for screens, backgrounds, etc. We believe this strain to be superior to any on the market.

YEWS

Taxus cuspidata capitata—*Upright Japanese Yew*

Probably the most desirable single tree for landscape planting. Some of these trees are single stemmed while others have a tendency to produce many stems. The trees can be grown in either way with careful attention to early pruning. There are numerous variations of this tree listed in this catalog, but all Japanese Yews have certain common characteristics. The needles are quite similar, they produce their fruit in the form of a fleshy scarlet berry, the male and female flowers are produced on separate trees. In order to assure fruiting specimens, the trees must be planted in groups.

------------------------	-------	--------	--

YEW

Taxus cuspidata — Spreading Japanese Yew

The fact that this type is usually propagated from cuttings accounts for the great variations in different strains sold under this name. In general, this type is wider than tall, branching out from the bottom with several stems and developing into a low bushy formation, with the characteristic, dark green Yew color.

Each x indicates one transplanting. 5 of the same variety and size at the 10 rate; 25 at the 100 rate. B&B signifies balled and burlapped.

YEW

Taxus cuspidata intermedia — *Intermedia Yew*

Another form developed by Cottage Gardens, it resembles the old Dwarf Japanese Yew as it has the same heavy, deep green waxy foliage. It does, however, grow much faster, due perhaps, to the fact that it starts to grow a week to 10 days earlier than other yews. Ideal for hedges or any use requiring trees of dwarf habit.

Taxus cuspidata nana — *Dwarf Japanese Yew*

Almost black in color and of extremely slow growth, it forms an irregular and picturesque specimen. Old plants bear a closer resemblance to Boxwood than to any other Evergreen.

		Each	10	100

1½— 2	feet xxx.....B&B	6.50	62.50	600.00

Taxus cuspidata nana pyramidalis hilli — *Hill Pyramidal Yew*

This is a pyramidal form introduced by the Hill Nursery. It is a tree of slow growth, compact habit and column-like shape. Foliage is very dark green and heavy, resembling the Dwarf Japanese Yew. It has become a favorite with many of our customers.

		Each	10	100
10—12	inch xx.....B&B	\$1.70	\$16.00	\$150.00

Taxus cuspidata wardi

One of the newer varieties introduced and named for Mr. Ward of the Cottage Gardens. A spreading type with slightly crinkled foliage. It has a distinctly different appearance. The color is deep green and very attractive. We have had this variety in our Nursery for several years and intend to continue it as one of the regular forms of yews.

		Each	10	100
15 —18	inch xxx.....B&B	\$4.25	\$40.00	\$375.00
1½— 2	feet xxx.....B&B	5.50	52.50	500.00

Taxus media hicksi — *Hicks Yew*

One of the older varieties introduced and named for the Hicks Nursery, and is, according to them, a horticultural form of *Taxus Cuspidata*. It may be grown into an extremely narrow cigar shape or allowed to develop into broader specimens. It makes a good tree for narrow hedges.

		Each	10	100
15—18	inch xx.....B&B	\$1.65	\$15.50	\$145.00

ARBORVITAE

Thuya occidentalis — American Arborvitae

The American Arborvitae is the mother tree from which more than 50 distinct types have been developed. A native of the northern states where it grows in moist and wet location, it stands trimming well for both large and small hedges. Foliage is soft, flexible and light green in color.

		Each	10	100
4—5 feet xxx.....	B&B	\$5.50	\$52.50	\$500.00
5—6 feet xxx.....	B&B	7.00	67.50	650.00
6—7 feet xxx.....	B&B	8.50	82.50	800.00

Thuya occidentalis pyramidalis — Hill Pyramidal Arborvitae

A dense, compact type of good green color, narrow and pyramidal in habit. It reaches 15 to 20 feet and usually not more than two feet in diameter at the base. Has a tendency to grow with more than one stem, but can be trimmed to single stem if required.

		Each	10	100
18 —24 inches xx.....	B&B	\$1.60	\$15.00	\$140.00
2—2½ feet xx.....	B&B	2.00	19.00	180.00

5 —6 feet xxx.....	B&B	7.00	67.50	650.00

Thuya occidentalis — Globe Shaped

12 x 12 xxx.....	B&B	2.00	17.50	150.00
15 x 15 xxx.....	B&B	2.50	22.50	200.00
18 x 18 xxx.....	B&B	3.00	27.50	250.00

Each x indicates one transplanting. 5 of the same variety and size at the 10 rate; 25 at the 100 rate. B&B signifies balled and burlapped.

HEMLOCK

Tsuga canadensis — Canada Hemlock

A native American tree at home in the deep woods where it will stand severe cold. Our seed is obtained from Northern Wisconsin assuring a strain of tree more hardy than seed from southern localities. Valuable for landscape use in shade or on north side of buildings. Makes a regular conical form, tapering evenly from a broad base. It grows rapidly and has long, graceful branchlets, with soft green foliage. It trims easily.

		Each	10	100

Special Announcement Regarding

HILL'S NEW BOOK

"The Friendly Evergreens"

\$6.00 postpaid

This book is an entirely new book, containing more than 80 color plates and a total of more than 500 illustrations. Over 200 drawings have been especially made, illustrating various phases of Evergreen culture and use.

The book contains 240 pages securely bound in cloth and is 8½ by 11 inches. Nurserymen, florists, landscape gardeners, park and cemetery officials, private planters, instructors, and any one who has occasion to refer to any detail on this subject will find this the most complete book ever published.

The book is now ready for mailing.
